

Infant Grow Stage 1

Premium Infant Formula Milk based powder with Iron

Iron-fortified formula for full-term infants 0–12 months.

PRODUCT FEATURES:

- Milk-based infant formula inspired by mother’s breast milk.
- Contains prebiotic ingredients, galactooligosaccharides (GOS) to support the growth of beneficial gut bacteria in the colon, which can help stimulate the immune function, inhibit the growth of harmful bacteria and increase absorption of essential nutrients and syntheses of vitamins.
- Contains Arachidonic Acid (ARA) which is important for proper brain development for infants and growth of skeletal muscle tissue and aids in neurological development.
- Contains Docosahexaenoic Acid (DHA) which is essential for the growth and functional development of the brain in infants and healthy visual acuity.
- Contains Nucleotides to a level that is similar to that found in breast milk which aids on the development of intestinal system and the proliferation of intestinal epithelial cell which increases probiotic bacteria in the intestinal tract. Nucleotides also has the benefit effect on the development and maintenance of the immune system.

NUTRITIONAL FACTS

Nutrients

Nutrients	Units	Per 100g	Per 100 ml
Energy	kJ	1887	352

Ingredients:

Whey Protein Powder, Nonfat Cow's Milk, Lactose, Vegetable Oils, Glucose Syrup, Galactooligosaccharides (GOS), Taurine, Arachidonic Acid (ARA), Nucleotides (Adenosine-5-monophosphate, Cytidine-5-monophosphate, Disodium Guanosine-5-monophosphate, Disodium Inosine-5-monophosphate, Disodium Uridine-5-monophosphate), Docosahexaenoic Acid (DHA), L-carnitine, Lutein, Minerals (Calcium Carbonate, Calcium Hydrogen Phosphate, Cupric Sulfate, Ferrous Sulfate, Magnesium Hydrogen Phosphate, Manganese Sulfate, Potassium Chloride, Potassium Citrate, Potassium Iodide, Sodium Selenite, Zinc Sulfate, sodium Citrate), Vitamins (Vitamin C, Vitamin A, Beta Carotene, Vitamin D3, Vitamin E (Tocopherol), Vitamin K, Vitamin B1, Vitamin B6, Vitamin B12, Niacinamide, Choline, Folic Acid, Pantothenic Acid, Biotin, Inositol,

Hydroxide, Potassium Bicarbonate). Contains milk and soy.)

PRODUCT FORMS

Description	Unit Size	Cal. /Unit	Prod. Yield Unit (fl oz)	Case
Infant Grow Stage 1 Infant Formula Milk Powder	860 grams 30.33 oz can 1.84 lb	4,000	200	12 cans Per Case
Infant Grow Stage 1 Infant Formula Milk Powder Bulk Tote	453,600 grams 1,000 lb 453.6 kg			1 Bulk Tote per Pallate

PREPARATION OF FEEDINGS

Carefully follow these instructions. Use only as directed by a medical professional. Proper hygiene, preparation, dilution, use and storage are important when preparing infant formula. Powdered formulas are not sterile and should not be fed to premature infants or infants who might have immune problems unless directed and supervised by a doctor.

Discuss with parents whether they need to use cooled, boiled water for mixing and whether they need to boil clean utensils, bottles and nipples in water before use.

1

Wash hands thoroughly with soap and water before preparing formula.

2

Pour the desired amount of water into the bottle. Add powder.

3

Cap bottle and shake well.

Use the following chart for correct amounts of water and powder. Use scoop in can to measure powder. Store DRY scoop in its original can:

To Make	Water	Powder	Weight
2 fl oz	2 fl oz	1 Packed Level Scoop	8.6 g
4 fl oz	4 fl oz	2 Packed Level Scoop	17.2 g
6 fl oz	6 fl oz	3 Packed Level Scoop	25.8 g
8 fl oz	8 fl oz	4 Packed Level Scoop	34.4 g
1 quart	28.5 fl oz	1 Packed Level Household Measuring Cup	122.55 g

CAUTION: Use product by the date on the container. Nutritional powders are not sterile.

WARNING: Do not use a microwave oven to prepare or warm formula. Serious burns may result. This product is not recommended for routine use in very low-birth-weight infants. Some of these infants may be at increased risk of developing gastrointestinal complications. Use with directions from the baby's physician.

Failure to follow these instructions could result in severe harm. Once prepared, infant formula can spoil quickly. Either feed immediately or cover and store in refrigerator at 35°–40°F (2°– 4°C) for no longer than 24 hours. Do not use prepared formula if it is unrefrigerated for more than a total of 2 hours. Do not freeze prepared formula. After feeding begins, use within 1 hour or discard. Powder Storage (cans) Store cans at room temperature. After opening can, keep tightly covered, store in dry area and use contents within 1 month. Do not freeze powder, and avoid excessive heat. Use by date on bottom of can. Shake well before feeding.
